

# RUN THE RISK OF WINNING

## The Debut-Album of Sven Humm

(Debut/ Feb 2015)

### Short Biography:

Sounds different! Hello, my name is Sven Humm.  
If someone asks me what describes my music best,  
it would be the genres Blues, Alternative and Psychedelic music.  
So if the person still stands in front of me in disbelief,  
I add my influencing artists and role-models which consist for instance of  
the Red Hot Chili Peppers, John Mayer, Prince and Gary Clark Jr.  
At least by then you should have an image of my work.  
When I started playing the guitar at the tender age of 17 years I couldn't foresee,  
that this would fulfill me the way it does.  
Music is my life and I love to pass this special bond on to my audience.  
Back then, I never dreamed of closing the circle in 2014:  
My first album!  
In finest steps, the album had been captured in the course of the year 2014  
and facilitates the insight into my artistic work.  
The product is entitled „Run The Risk of Winning“ and contains 11 of my best songs.

### Quotes about me:

*„Beyond the poppy mainstream of these hectic times, Singer/Songwriter Sven Humm takes the listener on a journey with handmade music, deep into his mind and away from all the hurly-burly. Influences of his work can be found along Blues-music and Alternative, as well at the psychedelic music of the seventies.“*

*-Steffen Gerlach, JUKUZ Aschaffenburg*

*„Boom! Sven Humm appears out of nowhere and hits bulls eye with „Run The Risk Of Winning“. [.]. The psychedelic blues sound of The Doors as well as the Alternative Rock sound of the Red Hot Chili Peppers can be discovered on songs such as „Melanie“ or „Enceladus“. Humm easily transfers the sound of the praised 70s into present: He passionately confers his smokey voice to emotional lyrics while he outlines demanding subjects with swift fingers on his guitar. Quality production from Aschaffenburg!“*

*- Christoph Ruppel, FRIZZ Magazine Aschaffenburg*
